Internet Retailing and Future Perspectives

Eleonora Pantano, Middlesex University, UK, Bang Nguyen, East China University of Science and Technology, China, Charles Dennis, Middlesex Business School, UK and Sabine Gerlach, University of Lincoln, UK

Bill Merrilees, Griffith University, Australia

This long-awaited new edition provides a thorough and substantial update to its solid core principles and is still one of the few textbooks dedicated to internet retailing. The underlying principles of e-retailing are explained clearly and practically to provide students and professionals with a reliable guide to the implementation and operation of a successful online retailing business.

Updates to this edition include Search Engine Optimization, new and updated case studies, including on Ray-Ban’s "virtual mirror" and IKEA's mobile interactive catalogue, social networking and a brand new chapter on ubiquitous retailing. It also includes a new companion website to support tutors.
